Solution:

Question-3:

Upload a css page to the object storage and use the same page in your HTML code.

Solution:

cloud computing

- Cloud computing is the on-demand delivery of IT resources over the Internet with pay-as-you-go pricing. Instead of buying, owning, and maintaining physical data centers and servers, you can access technology services, such as computing power, storage, and databases, on an as-needed basis from a cloud provider like Amazon Web Services (AWS).

Cloud Computing
(Visual representation)

The delivery of different services through the Internet which includes tools and applications like data storage, servers, databases, networking, and software.

- Accessibility anywhere, with any device.
- Ability to get rid of most or all hardware and software.
- Centralized data security.
- Higher performance and availability.
- Quick application deployment.
- Instant business insights.
- Business continuity.
- Price-performance and cost savings.
